

Unprotected Home Questionnaire: Risks Located in Protection Class 9

Instructions: Please answer all questions below. If any question is answered as "No" the risk is ineligible for coverage

	Yes	No
<u>Fire department information</u>		
Is the responding fire department manned 24 hours?		
Is the fire department response time 15 minutes or less ?		
Does the Fire Department have year-round access?		
<u>Alternate water source</u>		
Is there an accessible alternate water source on property?		
Is the alternate water source usable and accessible to FD year round?		
Is the alternate water source within 1,000 ft of the home?		
Does the water source have at least 4,000 gallons or one (1) gallon per sq ft of the dwelling, whichever is greater? (example: A 5,000 sq ft home requires 5,000 gallons of water)		
<u>Risk information</u>		
Is a Central Station Fire Alarm active?		
Is the dwelling visible with no obstructions to any applicable full time resident neighbors?		
Is the property free of any known road access issues?		
If there are any obstructions present (e.g. lock box), is there a plan in place with the fire department to access the property?
